SUBJECT:

LEAF AND SNOW SCREEN

MODELS:

TRIUMPH TR-7

The Leaf and/or Snow Screen on the Triumph TR-7 can be further enhanced by the addition of a sealing strip installed on the lip at the rear of the fresh air intake plenum.

The illustration below shows clearly how this simple installation can be accomplished. The part number involved is YKC-1884.

A time allowance of 00.30 hours will be allowed for this operation irrespective of whether the vehicle is within warranty or not.
