MO.	YEAR
05	1975

SUBJECT:

TRIUMPH SPECIAL TOOL
PART # BLT 2019 (I.D. #S109C)
REAR HUB REMOVER

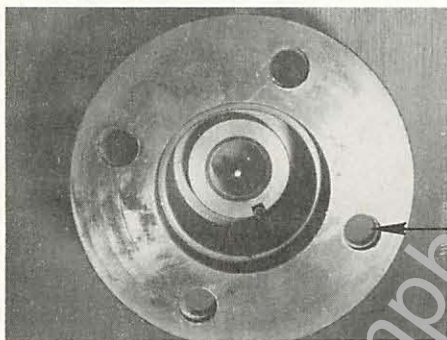

FILING:

DEPARTMENT: Service
SECTION: Special Tools

ISSUE:

S-6

The Rear Hub Remover, Part # BLT 2019, can be used on the Triumph TR7; however, it is necessary to modify the tool by enlarging the four (4) bolt holes to $\frac{1}{2}$ " diameter as shown:

Drill the (4) holes
to $\frac{1}{2}$ " diameter

It is necessary to use Hub Nut Set, Part # BLT 2076, for the TR7 application. These nuts are being supplied with the required TR7 tools as per Dealer Aids and Distribution Information Bulletin, Issue ST-4.

Note : The rear hub remover can still be used on Marina, Spitfire, and GT6 even though it is modified.
